Organisation

Luxembourg targets a 50-55% cut in greenhouse gas emissions by 2030 in comparison to 2005. The Luxembourg government is aware that, to achieve this goal, it needs strong local partners like the local authorities and it has therefore decided to develop an offer – the so-called climate pact – for local authorities, which are expected to take a leading role in the fight against climate change in return for national support.

Following this decision, myenergy, the national structure for information and advice on energy efficiency and renewable energies, was mandated by the Ministry of the Environment, Climate and Sustainable Development to develop a concept for the climate pact. In search of an adequate instrument, the European Energy Award (eea) quickly came into focus. Its holistic approach in terms of themes and targets, its quality management process and its tools, including the assessment tool, make it a perfect instrument for guiding the local authorities in their climate protection efforts.

Status of the eea in Luxembourg

Since 2013, each local authority has had the opportunity to commit itself to implementing the eea process within its territory by signing the Climate Pact Convention. To date, all 102 local authorities have joined the initiative and launched the eea process. A pool of Luxembourg eea advisors, the so-called “climate advisors”, was created at the same time. Several basic training courses as well as specific advanced training courses were organised by myenergy, the national eea office. In 2019, 31 accredited climate advisors are providing eea-related consultancy services to the participating local authorities.

European Energy Award

The European Energy Award (eea) is a quality management, benchmarking and awarding system for local authorities. Committed to sustainable local climate policy the eea supports, through its process, instruments and qualified advisors, the planning and implementation of local actions in all relevant areas (such as e.g. spatial planning, buildings, water, waste, or mobility).

Today around 65 million people live in one of over 1500 participating local authorities from 15 countries.

The eea helps implementing national and European goals and is recognized as excellent implementation tools of the Covenant of Mayors.

Participating local authorities in Luxembourg

**Awarded eea Gold**
- Beckerich
- Clervaux
- Ell
- Esch-sur-Alzette
- Hesperange
- Parc Hosingen
- Pétange
- Schifflange
- Tandel

**Awarded eea**
- Beaufort
- Bech
- Berdorf
- Bertrange
- Bettembourg
- Betzdorf
- Bissen
- Boulaiile
- Bous
- Colmar-Berg
- Consdorf
- Contern
- Dalheim
- Diekirch
- Differdange
- Dudelange
- Echternach
- Erpeldange-sur-Sûre
- Esch-sur-Sûre
- Ettelbruck
- Feulen
- Fischbach
- Flaxweiler
- Frisange
- Garnich
- Goesdorf
- Grevenmacher
- Grosbous
- Heffingen
- Helperknapp
- Junglinster
- Käerjeng
- Kayl
- Kehlen
- Kiechpeit
- Koerich
- Lac de la Haute-Sûre
- Larochette
- Lintgen
- Lorentzweiler

**Participating**
- Bettendorf
- Biever
- Dippach
- Feulen
- Frisange
- Habicht
- Kopstal
- Leudelange
- Manternach
- Mondereange
- Nommern
- Reisdorf
- Schlengen
- Vallée de l’Ernz
- Waldbredimus
- Weiler-la-Tour
- Weiswampach

**Ordinary member countries:** Austria, France, Germany, Italy, Liechtenstein, Luxembourg, Monaco, Switzerland

**Pilot countries:** Belgium, Croatia, Greece, Romania, Serbia, Poland, Ukraine
