

Luxembourg

Organisation

Luxembourg targets a 50- 55% cut in greenhouse gas emissions by 2030 in comparison to 2005. The Luxembourg government is aware that, to achieve this goal, it needs strong local partners like the municipalities, and it has therefore decided to develop an offer – the so-called climate pact – for municipalities, which are expected to take a leading role in the fight against climate change in return for national support.

Following this decision, myenergy, the national structure for information and advice on energy efficiency and renewable energies, was mandated by the Ministry of the Environment, Climate and Sustainable Development to develop a concept for the climate pact. In search of an adequate instrument, the European Energy Award (eea) quickly came into focus. Its holistic approach in terms of themes and targets, its quality management process and its tools, including the assessment tool, make it a perfect instrument for guiding the municipalities in their climate protection efforts.

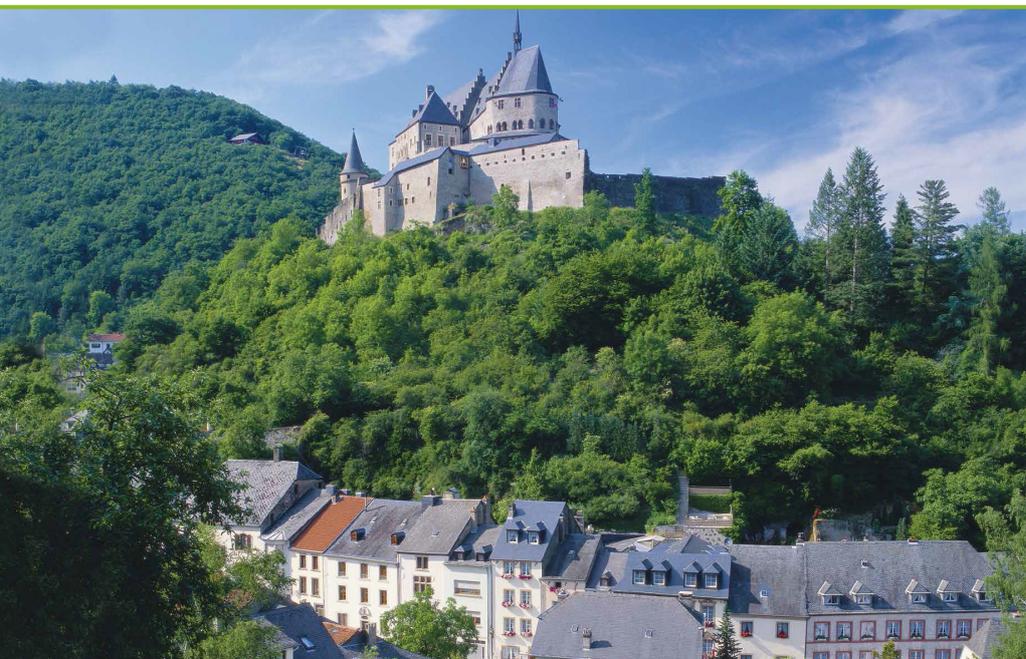

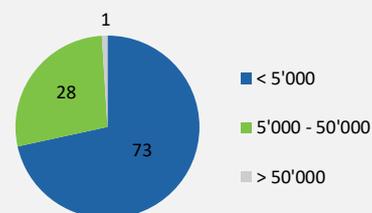

Status of the eea in Luxembourg

Since 2013, each municipality has had the opportunity to commit itself to implementing the eea process within its territory by signing the Climate Pact Convention. To date, all 102 municipalities have joined the initiative and launched the eea process. A pool of Luxembourg eea advisors, the so-called “climate advisors”, was created at the same time. Several basic training courses as well as specific advanced training courses were organised by myenergy, the national eea office. In 2017, 51 accredited climate advisors are providing eea-related consultancy services to the participating municipalities.

Figures

Number of municipalities	
- participating in total	102
- awarded eea	77
- awarded eea Gold	8
Population involved	590,667
1st eea award	2014
1st eea Gold award	2015
Status beginning of 2019

European Energy Award

The European Energy Award (eea) is a quality management and awarding system for municipalities committed to sustainable municipal energy, climate and transport policies. From spatial planning to energy supply, from mobility to communication and cooperation – the eea comprises the full range of proven energy and climate protection measures municipalities can take. The eea is therefore the most comprehensive quality management system for municipalities in the field of energy efficiency.

The eea takes particularities of individual countries and regions into account, yet provides for benchmarks to be established between municipalities at a European level. At the European level, the eea is interlinked with other programmes such as the Smart Cities initiative and the Covenant of Mayors and corresponds to the 20-20-20 objectives of the European Union for 2020. Today, more than 1,500 municipalities are participating.

Further information: www.european-energy-award.org

- Ordinary member countries: Austria, France, Germany, Italy, Liechtenstein, Luxembourg, Monaco, Switzerland
- Pilot countries: Belgium, Croatia, Greece, Romania, Serbia, Poland, Ukraine

Participating municipalities in Luxembourg

Awarded eea Gold

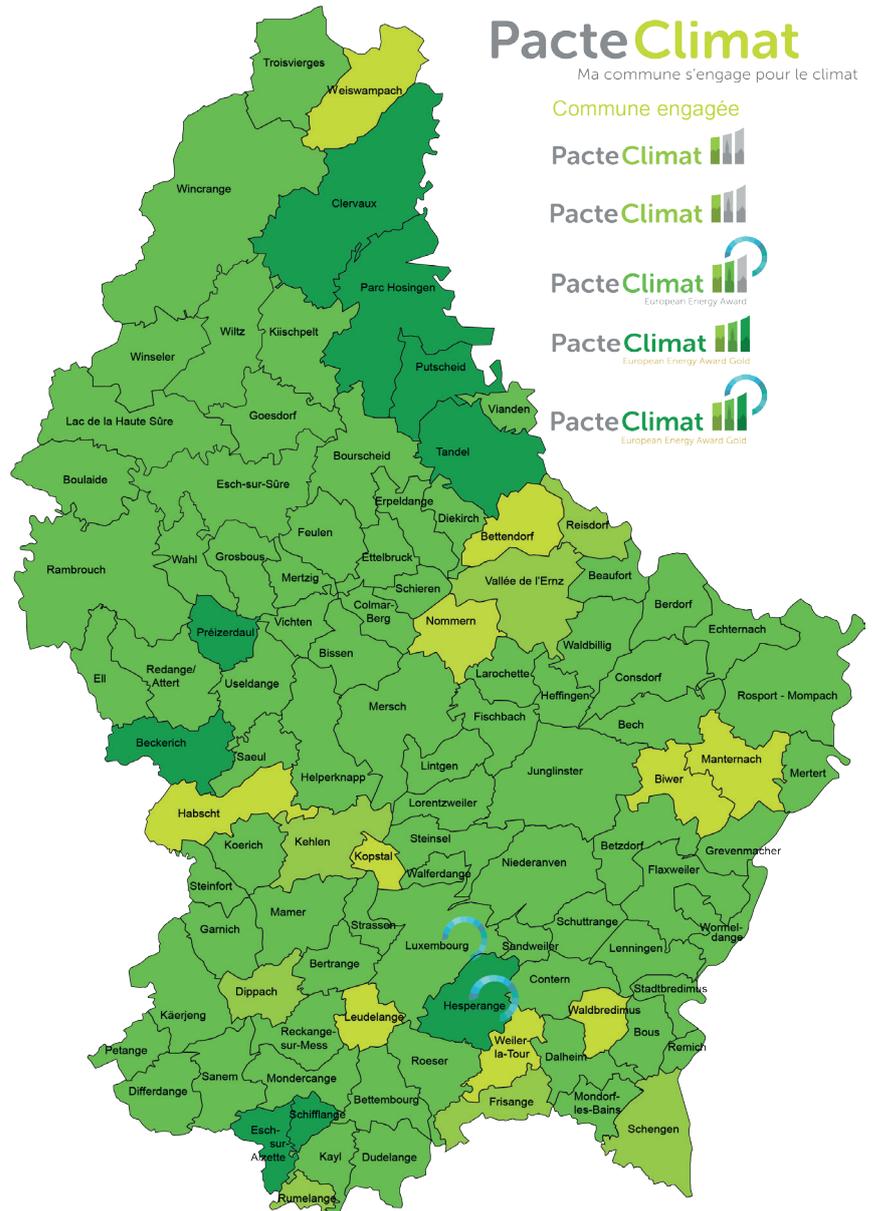

Beckerich	Pétange
Clervaux	Rambrouch
Esch-sur-Alzette	Redange-sur-Attert
Hesperange	Remich
Parc Hosingen	Saël
Préizerdauil	Sandweiler
Putscheid	Sanem
Schifflange	Schieren
	Schuttrange
	Stadbredimus
	Steinfert
	Steinsel
	Tandel
	Troisvierges
	Wincrange

Awarded eea

Bech	Troisvierges
Berdorf	Tuntange
Bertrange	Useldange
Bettembourg	Vianden
Betzdorf	Vichten
Bissen	Wahl
Boevange-sur-Attert	Waldbillig
Boulaide	Walferdange
Bous	Wiltz
Colmar-Berg	Wincrange
Consdorf	Winseler
Contern	Wormeldange
Dalheim	
Diekirch	

Participating

Differdange	Beaufort
Dudelange	Bettendorf
Echternach	Biwer
Ell	Bourscheid
Erpeldange-sur-Sûre	Dippach
Esch-sur-Sûre	Feulen
Ettelbruck	Frisange
Fischbach	Heffingen
Flaxweiler	Hobscheid
Garnich	Kehlen
Goesdorf	Kopstal
Grevenmacher	Lenningen
Grosbos	Leudelage
Junglinster	Manternach
Käerjeng	Nommern
Kayl	Reckange-sur-Mess
Kiischpelt	Reisdorf
Koerich	Roeser
Lac de la Haute-Sûre	Rosport
Larochette	Rumelange
Lintgen	Schengen
Lorentzweiler	Septfontaines
Luxembourg	Strassen
Mamer	Vallée de l'Ernz
Mersch	Waldbredimus
Mertert	Weiler-la-Tour
Mertzig	Weiswampach
Mompach	
Mondercange	
Mondorf-les-Bains	
Niederanven
